

NetSuite Solutions for the CEO

Lead smarter, grow faster.

Enter New Markets, Serve Customers, Increase Efficiency and Control Costs

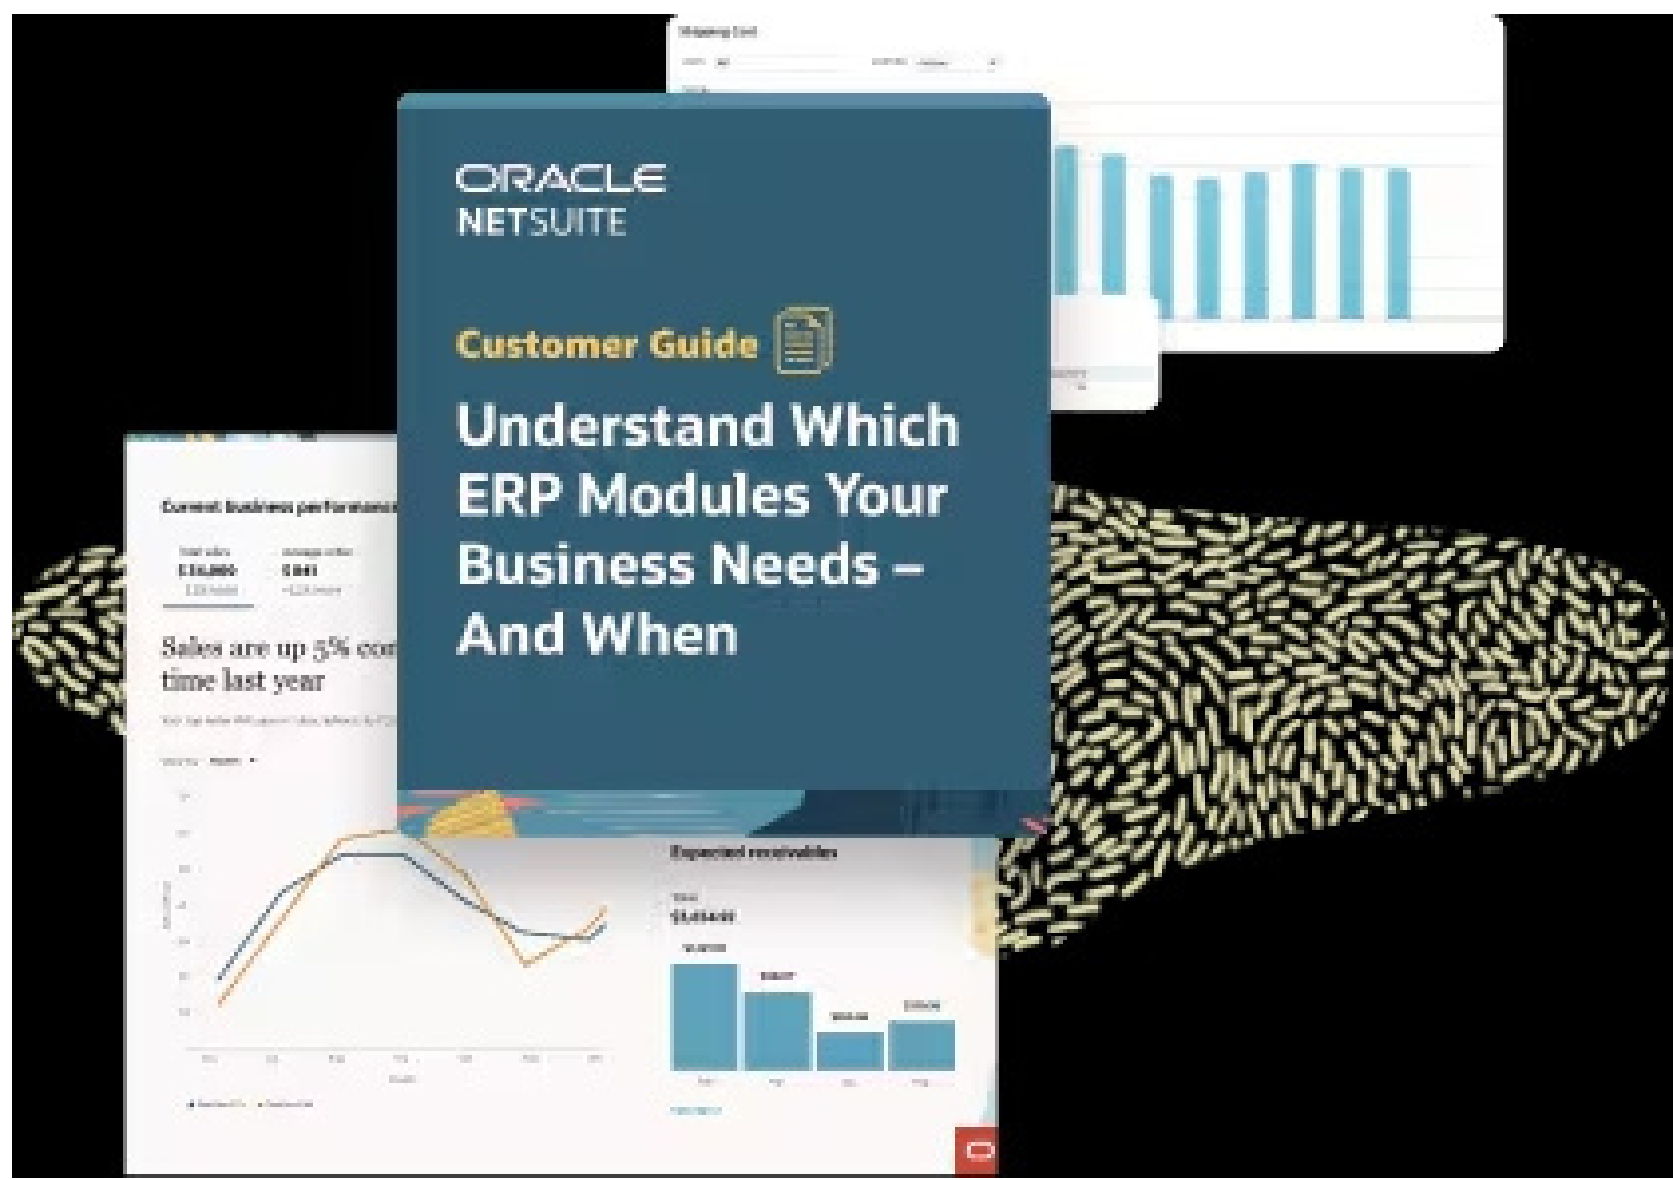

A business owner or CEO holds the ultimate responsibility for every decision made within the organization. While this role can be challenging, it is also highly rewarding.

One significant hurdle is having a clear vision for your company's future but lacking a defined path to achieve it. NetSuite assists by allowing you to concentrate on driving business growth instead of managing technology. With NetSuite, you gain comprehensive visibility into your finances, customers, employees, and products and services. This platform delivers reliable financial and operational insights, enabling you to pinpoint opportunities and threats and respond to them with assurance.

Key Benefits:

- **Financial and Operational Leadership** Drive revenue, control costs, and improve profitability.
- **Build the Brand** Enhance business value through product improvement, reputation strengthening, and efficient expansion.
- **Raise Capital** Utilize robust reporting and audit-ready financials for future growth opportunities like IPOs or acquisitions.
- **Engage Employees** Foster a collaborative work environment for efficient information sharing.
- **Business Software That Grows with You** Scale from startup to IPO with adaptable solutions that evolve with your business needs.

Additionally, NetSuite's scalability, regular updates, anytime/anywhere access, and exceptional reliability ensure you have a system that will adapt and support your business as it evolves.

One Cloud Solution for Your Entire Business

NetSuite delivers features for accounting /enterprise resource planning (ERP), customer relationship management (CRM), professional services automation (PSA), supply chain management (SCM), human resources, and e-commerce in a single, cloud-based business management software solution that you can access from anywhere, 24 hours a day.

Scale to Support Growth

NetSuite supports companies from startups through IPO and beyond with a system that allows them to effortlessly support international operations with multi-language, multi-currency capabilities and adapt to new business models like subscription services or omnichannel commerce.

A Complete Picture of Your Business

Get a single view into all your financial and operational data and extend that insight across the company. Built-in, real-time dashboards, key performance indicators (KPIs), analytics and reporting provide complete summary and detailed views of finance, sales, inventory, HR, product and service performance and more.

Plan and Forecast with Confidence

Inform shareholders, financial partners and other vested parties of current results and long-term plans with confidence using unified budgeting, planning and forecasting, while sophisticated analytics capabilities allow you to quickly and easily deliver reports.

Enhance your intelligence with a platform that provides visibility, scalability, and flexibility, enabling your business to grow at a quicker pace.
